🎯 OBJECTIVE

Looking for a challenging Software & Web Developer role to utilize my strengths and knowledge in an organization that offers challenging task and environment that encourages learning and professional growth.

🎓 EDUCATION

MCA │ Career Point University, Kota
AUG 2022 - JUNE 2024
CGPA - 8.7

B.Com │ University of Kota, Kota
MAY 2019 - JUNE 2022
Percentage - 68.5%

💼 EXPERIENCE

Software Developer Intern
Alea IT Solutions Pvt. Ltd., Jaipur
Feb, 2024 - May, 2024

During my internship, I learned the Laravel framework and worked on a company project using it. I developed RESTful APIs and an admin panel for a web application. I also gained experience in writing clean code, managing projects with Git and GitHub, and collaborating effectively with a team.

🛠️ Skills

Technical Skills

PHP • Laravel • OOP's • RESTful API • MySQL • Git & GitHub • HTML • CSS • JS • WordPress • Core Python • Django • Core Java

Soft Skills

Time Management • Problem-solving • Teamwork • Patience • Flexibility • Leadership • Communication

🧠 PROJECTS

- **Job Portal (Web application)**

  I've developed a job portal web application where users can register, apply for jobs, and post job listings. An admin panel allows management of the site, including editing user details, modifying or blocking job posts, and removing users.

  Languages: Laravel (Framework), PHP, HTML, CSS and Database MYSQL.

- **Mini Blog (Web Application)**

  I designed and developed a compact blog website that offers an intuitive platform for administrators to create, publish, and efficiently manage blog posts, including their associated categories.

  Languages: PHP, HTML, CSS and Database MYSQL.

- **· Educourse Hub (Learning Management System)**

  I built a responsive WordPress LMS similar to Udemy, offering diverse online courses and allowing user registration as instructors to create and share their courses.

  Tools & Plugins: WordPress, Tutor LMS Plugin, Elementor, Woo Commerce.

- **All Chalisa (Android Application)**

  I built the 'All Chalisa' Android app in Java, offering a rich repository of Hindu devotional hymns with text, audio, offline access, and sharing features for Chalisa enthusiasts.

  Language: Java, XML.

🏅 CERTIFICATES

- **Certification : PHP Programming | Issuing Organization : Great Learning | Date : Oct'23**
- **Certification : MySQL | Issuing Organization : Great Learning | Date : July'23**
- **Certification : Git & GitHub | Issuing Organization : Great Learning | Date : Oct'23**
- **Certification : Python | Issuing Organization : Great Learning | Date : Oct'23**
- **Certification : Django | Issuing Organization : Great Learning | Date : July'23**

🧑‍🎤 HOBBIES

Learning New Skills & Technologies   **Listening Music**   **Playing Games**
